Networking in SpatialChat (17:50 – 18:30)

The screenshot displays the SpatialChat interface for a networking session. The interface is blue and features a central chat area with six numbered white circles (1-6) arranged in a hexagonal pattern. Surrounding the chat are four presentation cards, each with a title, time slot, and speaker information. The top navigation bar includes a menu icon, the SpatialChat logo, the session title 'SGPF GeoVision', and user controls. The bottom navigation bar contains a 'CUSTOMIZE' button and various chat controls.

SGPF GeoVision

Innosuisse Innovation Booster

Presentation #1
16:40 - 16:55 Frank Marsae, Pictaris
Machine learning to advance the extraction of geospatial information and near-real time alerts from Earth observation imagery [EN]

Presentation #2
16:55 - 17:10 Jan D. Wegner, ETHZ EcoVision
Machine learning for forest structure assessments [EN]

Presentation #3
17:10 - 17:25 Claudio Facchini, Bundesamt für Statistik
ADEE: Overview of a deep learning application of land use and land cover change detection and classification in Switzerland [EN]

Presentation #4
17:25 - 17:40 Sylvain Robert, SwissRe
Bayesian optimization for improved landslide risk mapping [EN]
